

COLORADO SPRINGS, COLO., THURSDAY, SEPTEMBER 7, 1911

PRICE FIVE CENTS

**TELLS COLORADO  
TO GET SENATOR**

NEED HIM IF WOULD GO

Secretary of Agriculture Scolds  
State for Wasting  
Resources

DENVER, Sept. 5.—His nose of my business, but he doesn't mind. Why don't you elect another United States senator? Secretary Wilson asked of his auditors tonight in the banquet given in honor of the secretary of agriculture at the chamber of commerce.

We need him, continued the secret-

stary, "and you must look it over when you develop the resources of the west." Mr. Wilson's short address was directed wholly to Colorado matters. He spoke of the great possibilities of the beet sugar industry in the state, saying that enough sugar could be produced here to supply the nation and have a margin for shipment abroad. He also faulted the state for wasting its soil, which, both its water and its soil fertility, declaring that twice as much water was used in irrigation as the state required and seeing that the productivity of the soil was not utilized by sufficient fertility, that the tendency in a considerable degree being to plant the seed, turn the water on and let it run off.

Governor Shaffroth of Colorado and Carey of Wyoming were among the other speakers. Governor Shaffroth asserted that more than \$1,000,000,000 was represented in irrigation projects in Colorado, either completed or under way.

**Standley Dam Opening.**  
DENVER, Sept. 6.—The opening of the great Standley dam will take place tomorrow at noon. Secretary of Agriculture Wilson being the principal speaker. Other addresses, however, will

be made by Governor Shafroth, Governor Carey of Wyoming, President Johnson of the Denver Chamber of Commerce, and Charles Larson, director of agriculture of New York state.

A special train will leave Denver for the dam at 10:30 a. m.

## DECISION IN MINE CASE

Judge Lewis, decided that Charles W. Franklin of Denver, was entitled to his share in the rich placer property at Brockwidge operated by the Alliance Gold Dredging company, and that the English investors must be paid \$3,000.

Judge Haber did not indicate what funds were to be used to pay those investors and he will determine after private and public hearings whether the money

...to come out of the share owned by Benjamin Stanley Revett or partly out of Franklin's and partly out of Revett's interest. The suit was brought by A. G. Fairbairn against Revett and Franklin jointly, in which it was said that

Revelt, after he had obtained control under a trusteeship, not only took out \$198,000 in gold, but that he had sold stock, making the total revenues \$335,000. It was charged that Revelt after obtaining control ran the property to

— KEENE GROWS BETTER —  
LONDON, Sept. 6.—The attending

surgeon announced tonight that James R. Keene's condition continued satisfactory. He shows no febrile symptoms, his pulse is normal and no complications are looked for.

*g English  
licated at Last*

When he landed at Deal, Burgess, with difficulty, made his way through.

"In the time the swim occupied I should have been able to cross the channel twice, but for the adverse currents. Against these I had to terrify

light and came within an ace of falling. When approaching Cape Gris Nez the strong outward set of the current forced me to alter my course three times. I was held up for some time, but when I had rounded the corner I

"It was just in the slack of the tide that I got in. If I had not managed then I might have missed it, and drifted to Calais. It took three full

"I was severely stung several times by jelly fish, and while in midchannel after a sick spell, I felt heartbroken for a while I was almost delirious but

It was 7 o'clock in the morning when the swimmer sighted Gris Nez's shore. He was then two miles to the west, southwest. In these two miles it was

battle with the currents. But when  
 surges not within the shelter of the  
 shore he swam hastily ashore. He  
 rushed for two or three steps, then  
 walked steadily without assistance. He  
 looked round at the boat considering

**Colorado City**  
DEPARTMENT  
WILL MEET TONIGHT

About 25 members will be taken into the Colorado City Business Men's association at the regular meeting in Mack's hall tonight, and the work for which the club was organized—establishing wholesale prices making a credit list and booting the city—will be started. J. J. McCorkell has offered the free use of the hall to the association and J. C. McCracken, proprietor of the Argus, made the association a present of 300 invitations, which

**THIS IS CERTAIN**

The Proof That Colorado Springs Readers Cannot Deny.

What could furnish stronger evidence of the efficiency of any remedy than the test of time? Thousands of people testify that Doan's Kidney Pills cure permanently.

Home endorsement should prove undoubtedly the merit of this remedy. Years ago your friends and neighbors testified to the relief they had derived from the use of Doan's Kidney Pills. They now confirm their testimonies. They say time has completed the test.

Mrs. C. W. Bresser, 210 S. Institute St., Colorado Springs, Colo., says: "I still continue to endorse Doan's Kidney Pills. They made a permanent cure and I shall always be pleased to tell of their merits. When we were living in Marceline, Mo., Doan's Kidney Pills were first used in our home. They were taken for an attack of kidney trouble that doctors had failed to relieve and they brought splendid results."

For sale by all dealers. Price 50 cents. Foster-Milburn, Co., Buffalo, N. Y., sole agents for the United States.

Remember the name—Doan's—and take no other.

have been sent out to citizens who have not attended the meeting thus far. Members want to enlarge the association, and all citizens of Colorado City, whether engaged in business or not, are urged to attend the meeting tonight and start work with the club.

**COLORADO CITY NEWS NOTES.**

Johnston, Dennis, exchange Back Bldg.

Leo Shilling will leave soon for a week's visit with his mother in Missouri.

C. M. Bryan, who has been here visiting his son, S. J. Bryan, has returned to his home in Kansas.

Mrs. George P. Forst recently left for a month's visit with relatives in Indianapolis, Ind.

S. Fried of Denver was in the city yesterday visiting Mr. Schwartz. Mr. Schwartz left last night for Detroit.

The Woman's guild of the Good Shepherd church will meet in the parish house this afternoon at 2:30 o'clock.

Thomas Castello, who was recently arrested for peddling without a license, was sentenced to 30 days in the county jail by Justice Faulkner yesterday afternoon.

W. J. Palmer post No. 19, G. A. R., will hold its regular monthly meeting in W. C. T. U. hall Saturday afternoon at 2 o'clock. A short program is being prepared for the occasion. The Rev. G. H. Stutz will meet with the post to arrange for a citizen's committee to assist in memorial services and in other matters of interest to the G. A. R.

At a recent meeting of the school board a letter was read from the Wolf Realty company, offering a free site for a new high school building. The plot of ground is located north of Thornedale park. Miss Knapp, principal of the Midland school, was unable to resume her duties at the opening of school Tuesday on account of illness. She probably will be in charge next week.

**DENVER WOMEN VICTIMIZED**

DENVER, Sept. 6.—Hundreds of Denver women have been the victims of a well-dressed good-looking young man, who has been soliciting subscriptions to a fiction magazine promising subscribers at \$1 that they would receive the magazine for one year and a handsome cream set. The magazine announces that the young man, who is said to have operated extensively throughout the West, is an impostor.

### Deaths and Funerals

George Keller yesterday entered a plea of guilty to grand larceny and a statutory offense before Judge Sheaf in the district court. Sentence has been deferred but probably will be imposed within the next few days.

Attorneys in the Fred Hanson case will begin arguments this morning before Judge Sheaf of the district court. Hanson was placed on trial yesterday morning, charged with taking an automobile from a local garage. While out "joy riding" it is alleged, he damaged the machine to the extent of \$280. Hanson entered a plea of not guilty.

Attorney R. L. Chambers was appointed by the court to represent him. The hearing of testimony was finished last evening.

The city of Colorado City has filed an answer to a damage suit brought by Wilma Hunt, in which she asks \$15,000 damages for injuries. She claimed that the city left unprotected an alley where construction work was being conducted. The city claims in its answer that the alley was not a public alley.

Bringing with them a million dollars, 7,000 new settlers, mostly from England, located in Nova Scotia last year.

### DR. ELIZABETH SEVERN

Is to Speak on "The Power of Mind" at the Antlers Hotel, Friday Evening at 8:30

Another lecture by this popular exponent of A. I. Thought is well-attended by the many friends she has made during her stay here this summer. It is, however, in response to many questions that are asked in regard to her mode of untangling life's many problems that the present talk is to be given. Although an invitation to Dr. Severn wishes it understood that anyone really interested in the subject, "Practical Psychology," will be welcomed if they will phone or apply at the Antlers for a card of admission.

### Societies and Clubs

Mrs. Fisher's section of the First Baptist church will meet this afternoon at 2:30 o'clock at the home of Mrs. Eubank, 1410 North Weber street.

The East Side section of the First Baptist church will meet with Mrs. Moon, 222 North Cedar street, this afternoon at 2:30 o'clock.

The Woman's Missionary society of the Boulder Street Presbyterian church will meet this afternoon at 3 o'clock at the home of Mrs. Whitley, 734 East Kiowa street. All members and friends invited.

Pikes Peak chapter of the A. W. L. will meet tonight at 8 o'clock with Mrs. C. A. Eldredge, 15 East Williamette avenue. All members are requested to be present.

The Ladies Aid society of the Second Congregational church will meet at 2 o'clock tomorrow afternoon in the church parlors.

The Brotherhood of American Yeomen will give a complimentary card party at the hall tomorrow night.

Glen Eyrie chapter No. 8, O. E. S., invites Centennial and Ruxton chapters and all visiting members of the Eastern Star to attend the twentieth anniversary and past masters night this evening. Banquet at 6:30 o'clock.

A stated convocation of Pikes Peak commandery No. 6, Knights Templar, will be held this evening at 8 o'clock. There will be drill work in the order of the Knights of Malta. Important business will be transacted.

Mrs. Welch's Sunday school class will picnic today at Stratton park instead of Monument park, as first planned. All former members are invited to join in the picnic and meet at 10:30 a. m. at the park. Bring lunch.

Mrs. Arnold's district will meet with Mrs. Shackelford, 724 North Tejon street, tomorrow afternoon at 2:30 o'clock. Business of importance will be transacted.

The Portia club meets this afternoon at 4:30 o'clock with Mrs. F. F. Schreiber, 301 Monroe avenue, Colorado City.

### MIDLAND BAND CONCERT

One of the features of the Midland band concert at Stratton park tonight will be "Reminiscences of Richard Wagner," introducing the Spinning Song from "The Flying Dutchman." The program follows:

Overture, "William Tell" (request)

Selection, "The Spring Maid" (Rosini)

(a) "To Spring" (Grieg)

(b) "To Spring" (Grieg)

(Cornet obligato, Mr. Williams)

Airs from "The Grand Duchess" (Intermezzo, Ruse)

Finale "Longing for Home" (Klose)

Reminiscences of Richard Wagner (Introducing the "Spinning Song" from "The Flying Dutchman.")

Ballet Music, "Coppelia" (Delibes)

Finale "Longing for Home" (Klose)

### CASCARETS FOR A SICK, SOUR STOMACH

Gently but Thoroughly Cleanse and Regulate Your Stomach, Liver and Bowels while You Sleep.

That awful sourness, belching of acid and foul gases; that pain in the pit of the stomach, the heartburn, nervousness, nausea, bloating after eating, feeling of fullness, dizziness and sick headache, means indigestion; a disordered stomach, which cannot be regulated until you remove the cause. It isn't your stomach's fault. Your stomach is as good as any.

Try Cascarets, they cure indigestion, because they immediately cleanse and regulate the stomach, remove the sour, undigested and fermenting food and foul gases; take the excess bile from the liver and carry off the decomposed waste matter and poison from the intestines and bowels. Then your stomach trouble is ended forever. A Cascaret tonight will straighten you out by morning—a 10-cent box from any drug store will keep your entire family feeling good for months. Don't forget the children—their little insides need a good, gentle cleansing, too.

### NURSES GRADUATE FROM GLOCKNER SANATORIUM

The graduation exercises for the class of 1911, Glockner Training School for Nurses, were given before an interested audience on the sanatorium lawn yesterday afternoon. Mrs. E. C. Goddard, who presided, spoke at length upon the history of the sanatorium, paying high tribute to the women who have made the present institution possible. Particularly did she praise Sister Rose, Alexis whom she characterized as being the heart and brains behind its progress.

### Several Addresses Given.

The Rev. Father M. Donovan of Denver was one of the speakers of the afternoon. His address consisted mainly of a rehearsal of the many duties which await the graduate nurses. For the Glockner sanatorium board of control, Dr. L. H. McKinnis delivered the address to the graduates. Dr. B. P. Anderson presented the diplomas, and class plus to the graduates, making timely remarks upon the presentation of each diploma. Diplomas were given to the following:

Miss Irene Cecilia Maloney, Miss Eleanor Loretta Breenen, Miss Corinne Elizabeth Lieb, Miss Ruth Julia Smithmeir, Miss Bernice Etta Ogilvie, Miss Henrietta Sladek, Mrs. Margaret Kreedie Atlet, Miss Gertrude Madeline Schellman, Miss Jean Hagler Carnine, Mrs. Naomi Edith Canning, Miss Mary Cecilia MacCartin, and Mrs. Clorinda Simmons, postgraduate.

Mrs. Jenny Correa Bunn, soprano, sang from the opera of Tom Jones, and Fink's orchestra gave several selections. During the reception which followed, refreshments were served on the lawn.

Last night the graduating class was given a banquet in the nurses' dining room.

### Personal Mention

Miss Innes and H. Livingstone Center are at Estes park for the week.

Loring Anderson is visiting his relatives, Mr. and Mrs. Walter Scott Anderson, in Denver.

Dr. Nifong has removed his office to his residence 712 N. Cascade. Phone 1023.

R. S. Kaufman has returned from a business trip to New York and other eastern cities.

N. S. Davis, traveling passenger agent, and A. A. Glisson, general passenger agent, both of the Fort Worth and Denver road, with headquarters at Fort Worth, Tex., are stopping at the Alta Vista hotel.

Pfiff Atherton Noyes had as his guest Tuesday, Dr. Carroll of Washington university, secretary of the Archaeological Institute of America, with headquarters in Washington, D. C.

Mrs. Horace G. Lunt left for the east yesterday and will sail September 9 from New York to join her daughters, Mrs. Howard M. Hartshorne and Mrs. Clarence P. Dodge, in Paris.

A. A. Ryan's special car will carry his private secretary, M. J. McGlone, to New York from Colorado Springs this morning. Messrs. McGlone and Ryan have been spending their vacation in Colorado Springs, and Mr. Ryan will remain here a few days more.

### How to "Shed" A Bad Complexion

It's foolish to attempt to cover or hide a sallow complexion, or you can so easily remove the sallow and the like on a brownish skin, emphasize the defect. The better is to apply pure mercurized wax-same as you would cold cream—ting it on at night, removing it in morning with warm water and following with a dash of cold water. The effect of a few applications simply marvelous. The half-cuticle is absorbed by the wax—less, gradually, in tiny imperceptible particles—revealing the beautiful white skin beneath.

No woman need have a sallow, blotchy, pimply or freckled complexion if she'll just go to the druggist, get some good mercurized and use as suggested—Wolfe's.

**Editors to Hear Report on Publication Question**

DENVER, Sept. 6.—There was a meeting of the executive committee of the Colorado State Editorial association here today to consider the question of publication of constitutional amendments and referred and initiated legislative bills. The efforts of Governor Shafroth to reduce the publicity given to these features is meeting with strong opposition among the editors, although an element in the association supports the governor's position.

After a long discussion, the executive committee appointed a subcommittee to prepare a complete report on the question to be submitted at the January business meeting of the editorial association. The subcommittee is composed of H. F. Lake, Jr., Gunnison, chairman; G. T. Hardy, Canon City, and G. C. McCormick, Fort Collins.

**URGES TRADE EXPANSION**

United States Minister to China Says This Country is Losing Out in Orient.

CHICAGO, Sept. 6.—A plea for an expansion of this country's trade with the Orient was made today by William J. Calhoun, United States minister to China, in an address before the Association of Commerce.

"Only three great American firms have established themselves in China and are operating with the aggressive American spirit," said Mr. Calhoun. "I want you to build up your commercial interests in China. England and France have appreciated the tremendous possibilities of trade in China and are now the leaders in foreign commerce there. There are a number of American business houses who do business through brokers in China, but this is far less satisfactory than having your own representative on the ground. Half-hearted efforts in business are useless. There is no fear in my mind of the so-called 'yellow peril'."

**ve Oil Soap**

**WELCOMES BROTHER**

Sept. 6.—Yesterday's meeting Pope Plus and his brother, Sarto, who brought his nephew home in Graxa to be con-vy his holiness, was touching. Although two years older, on-thered into the apartment of off was about to kneel and kiss when the pope prevented him raced him tenderly.

Others remained together about on and leaving the pope's room Sarto said he found the pontiff ost satisfactory condition of dding they both were fast he-togenarians.

**PLEADS GUILTY TO MURDER AFTER TRIAL IS STARTED**

OZARK, Mo., Sept. 6.—After a jury panel had been summoned and the lay-ers were preparing to make their challenges in the trial of Fred Ball, charged with killing his young wife, the defendant pleaded guilty in the circuit court here today. Ball was sentenced to imprisonment for life. His plea of guilty came as a surprise, as he had maintained his innocence of the charge against him until today.

Ball went home one night last May under the influence of intoxicants. After a quarrel his wife was killed with a shotgun. Immediately after the tragedy, Ball said that his wife was killed by accident when the gun was knocked off a table and discharged.

**WOMAN PETS BULL THAT GORED HUSBAND TO DEATH**

LEADVILLE Colo., Sept. 6.—Antone Anderson, a miner, was gored to death today by a bull, which he was leading to water. Mrs. Anderson usually takes care of the animal and protested when a crowd gathered and wanted to kill it. To prove her assertion that it was ordinarily docile she walked up to the bull and rubbed its nose and stroked its head, the animal licking her hand affectionately in response. It is as-erted Anderson beat the bull a year ago.

**LETTER CARRIERS ELECT**

ROCHESTER, N. Y., Sept. 6.—After balloting all day delegates to the eightieth biennial session of the National Letter Carriers association today elected the administration ticket by substantial majorities. The election resulted: President, William B. Kelley, Brooklyn, reelected; Secretary, E. J. Campbell, Brooklyn.

**DES MOINES, Ia., Sept. 6.—Oscar F. Nelson of Chicago was reelected president of the National Federation of Postoffice Clerks by a unanimous vote at the sixth annual convention which closed here tonight. Salt Lake City was chosen as the meeting place of the 1912 convention.**

**WOMAN MAYOR CONSULTS SPECIAL INVESTIGATOR**

KANSAS CITY, Sept. 6.—Mrs. Ella Wilson, mayor of Hume, Kan., came to town tonight and went immediately to Kansas City, Kan., where she held a meeting with C. W. Trickett, special investigator appointed by Governor Stubbs to untangle the involved municipal affairs of Hume. Mrs. Wilson has been having a great deal of trouble with her council since she took office and she is determined to bring the city fathers to time.

"I am going to run that little town of Hume," she said, tonight, "even if I have to call on Governor Stubbs for the militia to carry out my orders. My councilmen have not treated me fairly. They have refused to meet with me and as an added affront they have refused to make a tax levy for next year's municipal expenses. I could reach no agreement with them, so I decided to come to Kansas City and talk the situation over with Mr. Trickett. He assures me that the state officials will cooperate with me in restoring peaceful conditions in Hume."

"Resign," Well, I should say not. I am going to fight this whole thing out, and I'm going to win."

**SPEAKING DATES FOR SPEER**

Denver Mayor to Deliver First Address Outside Home City This Month.

DENVER, Sept. 6.—Mayor Speer of Denver will speak at Delta on Thursday, September 14 and at Greeley, September 22. Both Delta and Weld counties will hold fairs on these dates and the fair associations have urged the mayor to address them.

It will be the first time that the mayor has ever spoken outside of Denver. He says there is no political significance to the speeches. He expects to lend his aid to boosting Colorado.

Attorney General Griffith and Mrs. Wilson, state superintendent of public instruction, both Republicans, will also speak at Delta on the same occasion with the mayor, who is a Democrat.

Governor Shafroth, Col. W. E. Skinner, and George W. Martin will be among the speakers at Greeley.

The mayor has been invited to speak at other fairs in the state. He is now considering the invitations.

**SPECIAL ORDER SAVES CROP**

Interstate Commerce Commission Helps Idaho Farmers Get Binding Twine.

SALT LAKE CITY, Sept. 6.—Through a special ruling of the interstate commerce commission a large part of the wheat crop on 50,000 acres of land near Idaho Falls, Ida., has been saved. Early last week the farmers realized that their wheat was ripening very fast and unless cut at once most of it would be lost.

No binding twine could be had at local supply houses and the matter was placed before the interstate commerce commission with a petition that an express company be permitted to grant a special rate whereby a carload of twine could be shipped from Chicago.

The petition was granted and a car of twine started west last Saturday, arriving at Idaho Falls on passenger time.

Within 30 minutes after its arrival the twine was being distributed and the gathering of the wheat commenced.

**DELIVERS GERMANY'S REPLY**

BERLIN, Sept. 6.—M. Cambon, the French ambassador and Herr von Kiderling-Waechter, conferred this afternoon for 45 minutes, during which the German reply to the French Moroccan proposals was delivered.

According to the Cologne Gazette's confidential dispatch the German counter-proposal demands a full guarantee on important economic interests in Morocco, concerning which technical advice must be taken before the conclusion of the agreement. This will require care and time. Much preparatory work, however, has been accomplished in the details of the guarantee and territorial compensation so that with good will on both sides an early result may be hoped for.

**MANY SERIOUS MATTERS**

(Continued From Page One.)

ispector, among these being, the statement that they did not belong to the Western Federation of Miners. In the connection, it is stated, that the shooting will discuss the shooting of Tom Jones by Jim O'Neill at Victor last Tuesday, although it happened since the call was issued. It is claimed that O'Neill is a member of the Western Federation, who was deported during the labor trouble, that Jones is a former sergeant of militia and that the shooting is an indirect result of the labor war.

During the extraction of rich ore from many mines, the ore itself aggregated \$500,000 annually. Even now, it is said, about \$15,000 a month, at a most conservative estimate, is stolen. One stealing, regardless of the amount, is a felony in Colorado, and the mine owners are determined to stamp out this class of thieves. Ways and means to stop the wholesale robbery will be discussed tomorrow.

The merger proposed by the United States Reduction and Refining company which would combine the Standard, Golden Cycle and Portland mills at Colorado City under control of a holding company capitalized at \$10,000,000, will be taken up by the mine operators. Although the Portland officials have flatly refused to enter the combining, and the Golden Cycle is understood to take the same position, this making the proposition an apparent failure, the mine owners will investigate to see just how matters stand. They are sure that a mill trust, with its attendant increase in ore treatment rates, could be a severe blow to the Cripple Creek mining industry.

## SEVERE STORMS IN THE MIDDLE WEST

KANSAS CITY, Sept. 6.—After a day of extreme heat, the temperature reaching 88 degrees here, eastern Kansas, extending south as far as Wichita and western Missouri, received a drenching rain tonight. The downpour was accompanied by a severe electrical storm, which lasted several hours. At Wichita a great storm of wind, hail and rain broke early in the night, unroofing houses and doing other damage. Two inches of rain fell in an hour. Street car service was demoralized, a number of cars being struck by lightning. One motorman was injured.

A second tremendous rainstorm broke at Wichita late tonight. Streets are flooded over all the city. Lightning is reported to have struck in numerous places, resulting in several small fires, but no serious damage. About 4.5 inches of rain has fallen thus far.

CHICAGO, Sept. 6.—A severe electrical storm struck the middle west tonight, delaying telegraph and telephone communication from Nebraska and Kansas and as far east as Lake Michigan.

Quincy, Ill., was cut off from communication with the outside world either by telegraph or telephone. Iowa and Missouri were affected by a severe electrical disturbance.

**NEGRO FRIGHTENS GIRLS**

Because of complaints made by the parents of three young girls, the police are looking for an unknown negro, described as about 30 years old, dressed in ragged clothes and carrying a dinner pail. From the story told the police, they are inclined to believe the negro is crazy.

The negro, it is claimed, tried to get the first girl, who was 7 years old, to crawl under a boxcar in the Santa Fe yards to recover a watch for him, but she refused and ran away. The next day the man he took a girl 9 years old into a shack on West Mill street and told her to wait for him, and then ran away. The third girl, who was about 12 years old, met the negro in the Santa Fe yards. He grabbed her and pulled her into a boxcar and then jumped out of the other side. In none of the cases did the negro attempt violence of any kind.

The police say the names of the parents who complained are unknown to them.

**GOOD ROADS CONFERENCE IN PUEBLO IN JANUARY**

DENVER, Sept. 6.—The next Colorado good roads conference will be held in Pueblo, the third week in January, immediately preceding the annual meeting of the Association of County commissioners. County representatives who met here today also decided on a temporary good roads headquarters in charge. J. H. Jenkins of Pueblo will be assistant secretary.

A transcontinental automobile highway traversing Colorado is to be urged, with the hope that it may be completed by the time of the Panama exposition.

**SUITS CLERANED \$1.00**

Hunter. Phone 1354. 129 N. Tejon.

**CONGREGATION NEUTRAL**

Takes No Action Either Way in Case of Clarence, Mo., Minister Who Ran Away.

CLARENCE, Mo., Sept. 6.—Members of the Center Street Methodist church, after talking over the case of their former minister, who has confessed to writing a letter to a former organist of the church, today decided that they had no power to take any action for or against the minister. The meeting was informal and was held at the church.

Oscar Callison, who wrote the letter to the Rev. H. Johnson, which caused him to resign from the ministry, was not present although he is a member of the church board.

The Rev. G. H. Lenthoff of Macon, who came to attend the meeting, went to Callison's home to see a copy of Callison's letter. Afterwards he went to the parsonage to see Mrs. Johnson. Before leaving for Macon he said he believed Johnson had been guilty of nothing more than indiscretion in writing to the girl. Callison refused to show anybody the letter from Johnson to the girl which caused him to write to the minister. He will not say that Johnson's letter contained terms of undecentment, but says that the girl's relatives will be ready for the preacher's defenders, if any attempt is made to appear that the girl took the initiative. To the Rev. Mr. Lenthoff, Johnson said:

"I have no excuse to make for what I have done. I am not guilty of any immorality, there is nothing criminal in my conduct. I have no excuse to offer for the correspondence."

He also expressed deep concern for his family and asked Lenthoff to come to Clarence and look after them.

Johnson is now some where in Iowa. His wife will join him there. To friends she expresses full confidence in her husband.

**BANK SUES FOR \$21,632 LOANED FOR MINES MERGER**

SALT LAKE CITY, Sept. 6.—A suit for \$21,632, filed by the National Bank of the Republic in the third district court, brings the differences which have arisen between factions of the Nevada-Utah Mines and Smelters company over the Pioche-Nevada mines merger into the legal forum. The defendants, named are Ernest R. Woolley, Nevada-Utah company, the Amalgamated Pioche Mines and Smelters corporation, Ludwig Vogelstein, L. Vogelstein & Co. and others.

The bank loaned the money on 300,000 shares of Ohio-Kentucky stock. It is alleged that the Amalgamated company and Vogelstein seek to enforce a counter claim for the stock. The court is asked to grant the plaintiff a foreclosure on the Ohio-Kentucky shares. The money was borrowed to buy out the Ohio-Kentucky interests when the merger was promoted.

**SAGE TEA WILL DARKEN THE HAIR**

Restore Faded and Gray Hair to Natural Color. Dandruff Quickly Removed.

There is nothing new about the idea of using sage for restoring the color of the hair. Our great-grandmothers kept their locks soft, dark and glossy by using a "sage tea." Whenever their hair fell out or took on a dull, faded or streaked appearance they made a brew of sage leaves and applied it to their hair, with wonderfully beneficial effect.

Nowadays we don't have to resort to old-time, tiresome methods of gathering the herbs and making the tea. This is done by skillful chemists better than we could do it ourselves, and all we have to do is to call for the ready-made product, Wyeth's Sage and Sulphur Hair Remedy, containing sage in the proper strength, with the addition of sulphur, another old-time scalp remedy.

The manufacture of this remedy authorizes druggists to sell it under guarantee that the money will be refunded if it fails to do exactly as represented.

This preparation is offered to the public at fifty cents a bottle, and is recommended and sold by all druggists. Special agent, The Robinson Drug Co.

**WOMAN MAYOR CONSULTS SPECIAL INVESTIGATOR**

KANSAS CITY, Sept. 6.—Mrs. Ella Wilson, mayor of Hume, Kan., came to town tonight and went immediately to Kansas City, Kan., where she held a meeting with C. W. Trickett, special investigator appointed by Governor Stubbs to untangle the involved municipal affairs of Hume. Mrs. Wilson has been having a great deal of trouble with her council since she took office and she is determined to bring the city fathers to time.

"I am going to run that little town of Hume," she said, tonight, "even if I have to call on Governor Stubbs for the militia to carry out my orders. My councilmen have not treated me fairly. They have refused to meet with me and as an added affront they have refused to make a tax levy for next year's municipal expenses. I could reach no agreement with them, so I decided to come to Kansas City and talk the situation over with Mr. Trickett. He assures me that the state officials will cooperate with me in restoring peaceful conditions in Hume."

"Resign," Well, I should say not. I am going to fight this whole thing out, and I'm going to win."

**SPEAKING DATES FOR SPEER**

Denver Mayor to Deliver First Address Outside Home City This Month.

DENVER, Sept. 6.—Mayor Speer of Denver will speak at Delta on Thursday, September 14 and at Greeley, September 22. Both Delta and Weld counties will hold fairs on these dates and the fair associations have urged the mayor to address them.

It will be the first time that the mayor has ever spoken outside of Denver. He says there is no political significance to the speeches. He expects to lend his aid to boosting Colorado.

Attorney General Griffith and Mrs. Wilson, state superintendent of public instruction, both Republicans, will also speak at Delta on the same occasion with the mayor, who is a Democrat.

Governor Shafroth, Col. W. E. Skinner, and George W. Martin will be among the speakers at Greeley.

The mayor has been invited to speak at other fairs in the state. He is now considering the invitations.

**SPECIAL ORDER SAVES CROP**

Interstate Commerce Commission Helps Idaho Farmers Get Binding Twine.

SALT LAKE CITY, Sept. 6.—Through a special ruling of the interstate commerce commission a large part of the wheat crop on 50,000 acres of land near Idaho Falls, Ida., has been saved. Early last week the farmers realized that their wheat was ripening very fast and unless cut at once most of it would be lost.

No binding twine could be had at local supply houses and the matter was placed before the interstate commerce commission with a petition that an express company be permitted to grant a special rate whereby a carload of twine could be shipped from Chicago.

The petition was granted and a car of twine started west last Saturday, arriving at Idaho Falls on passenger time.

Within 30 minutes after its arrival the twine was being distributed and the gathering of the wheat commenced.

**DELIVERS GERMANY'S REPLY**

BERLIN, Sept. 6.—M. Cambon, the French ambassador and Herr von Kiderling-Waechter, conferred this afternoon for 45 minutes, during which the German reply to the French Moroccan proposals was delivered.

According to the Cologne Gazette's confidential dispatch the German counter-proposal demands a full guarantee on important economic interests in Morocco, concerning which technical advice must be taken before the conclusion of the agreement. This will require care and time. Much preparatory work, however, has been accomplished in the details of the guarantee and territorial compensation so that with good will on both sides an early result may be hoped for.

**MANY SERIOUS MATTERS**

(Continued From Page One.)

ispector, among these being, the statement that they did not belong to the Western Federation of Miners. In the connection, it is stated, that the shooting will discuss the shooting of Tom Jones by Jim O'Neill at Victor last Tuesday, although it happened since the call was issued. It is claimed that O'Neill is a member of the Western Federation, who was deported during the labor trouble, that Jones is a former sergeant of militia and that the shooting is an indirect result of the labor war.

During the extraction of rich ore from many mines, the ore itself aggregated \$500,000 annually. Even now, it is said, about \$15,000 a month, at a most conservative estimate, is stolen. One stealing, regardless of the amount, is a felony in Colorado, and the mine owners are determined to stamp out this class of thieves. Ways and means to stop the wholesale robbery will be discussed tomorrow.

The merger proposed by the United States Reduction and Refining company which would combine the Standard, Golden Cycle and Portland mills at Colorado City under control of a holding company capitalized at \$10,000,000, will be taken up by the mine operators. Although the Portland officials have flatly refused to enter the combining, and the Golden Cycle is understood to take the same position, this making the proposition an apparent failure, the mine owners will investigate to see just how matters stand. They are sure that a mill trust, with its attendant increase in ore treatment rates, could be a severe blow to the Cripple Creek mining industry.

## PLENTY OF WORK AHEAD

AT THE risk of being tedious we simply must keep on talking about Colorado Springs, about ways and means of promoting its best interests, making it better and more beautiful, more attractive to tourists, more desirable as a place to live in and do business in. The subject is important to everybody that lives here. It means dollars and cents to all of us, and what is more essential greater satisfaction and pleasure in living. The upbuilding of Colorado Springs along right lines is the most vital thing before the people of this community today.

For proof of what has been done in this direction by other cities we have only to glance at the map of California. Everybody knows of the present popularity, and consequent prosperity, of the southern portion of that state. Most of us can remember when southern California was virtually unknown as a resort for tourists. Twenty years ago its fame was no greater than that of any other of the lower tier of states.

But fortunately for southern California its people awoke to a realization of their opportunities. They decided that it would be good business to let the world know of the charms of their winter climate. They began to advertise, and at the same time to make their country attractive to the people who would come in response to their advertisements. They spent money for good roads, with first results so satisfactory that now they are spending millions where formerly they spent thousands. They studied the question of tourist travel carefully, developed it from a haphazard, hit-or-miss proposition to a scientifically managed and highly organized business and they got results. It is not necessary to explain what the tourist business means to southern California today. In thirty years it has transformed Los Angeles from a town of 15,000 people to a metropolis of 350,000, and made the entire surrounding territory rich and prosperous.

The lesson to be drawn from this example is plain: **PROFIT BY THE EXAMPLE.** We have natural advantages here in the Pikes Peak region which are entirely lacking in California. We have an incomparably better climate. We have scenic attractions within fifteen minutes' ride of Colorado Springs the equal of which cannot be found anywhere else in the country except after long and tiresome journeying. And finally, we are within twenty-four hours' ride of the centers of population of the Middle West, from whence comes practically all of the tourist travel that flows toward the entire Rocky Mountain region. Colorado Springs can be reached from Chicago, Kansas City, Oklahoma City and other middle-western points in one-third the time required to get to California.

This is a plain statement of facts which is not open to question. We have the advantages, and it only remains for us to make the most of them. In the long run the pleasure seekers will go where they can find the greatest enjoyment. The community that bids highest for their patronage by spending money for the things that make a pleasure resort attractive will reap the benefits, while its less aggressive competitors will be left behind in the race. Nobody wants to spend money unnecessarily for the ordeal of riding for two days across a barren desert to reach a pleasant objective point, but unless Colorado Springs can offer attractions equal to those of the California resorts the traveling public will pass it by. It is simply a case of the longest pole knocking down the persimmon.

This subject ought to be carefully studied in its broadest aspect. What are the things that Colorado Springs lacks which, if supplied, would add to its popularity as a resort and its attractiveness as a place of residence and a field for investment? What can be done to supply these needs? Wherever a weak spot is discovered

ered the energy and public spirit of the community should be centered upon it until a remedy is found and applied.

## WORK DONE AND STILL TO BE DONE.

Wonderful progress has been made within a year. Street paving, so long needed, is to be an accomplished fact before winter, and with it will come widened sidewalks and a modern system of street lighting. A summer carnival held to commemorate the fortieth anniversary of the city's birth attracted probably the largest crowd ever assembled here, and what was equally important created a better feeling among the city's business interests and brought them into closer union by showing them what can be accomplished by concerted effort.

The reorganized Chamber of Commerce, which has been the most conspicuous factor in this work of upbuilding, is itself an evidence of the new progressive spirit. With a plan of organization which invites the active cooperation of every member it has succeeded in doing what was never before accomplished in Colorado Springs—that is, it has wiped out, insofar as such a thing is possible, the discord and petty jealousy which invariably exists in any city.

But the record of good results attained in the last ten months should only serve as an incentive to more vigorous effort. The things yet to be done are vastly greater than the things already accomplished. Merely a beginning has been made to the work of parking and otherwise beautifying the streets. Road-building, especially in the mountains, is a subject big enough to absorb public energies for years to come. Our magnificent park system is yet to be developed, in its present state it merely suggests the possibilities of the future.

These and a dozen other matters of vital interest to the people of Colorado Springs are yet to be disposed of. To treat them properly will require time, money and energy, but the results will well repay the expenditure.

From the Indianapolis News

Sir Wilfrid is finding difficulty in stilling the wolf howl of his long enough to get a discussion of the merits or defects of the past. When he does show that it is only a trick to evade discussion, the twin wolf cry, "Small Canada" become an Ireland or a Cuba, is raised. Odds of 5 to 1 that reciprocity will carry the day have been withdrawn, but heavy odds are still offered on its success at the polls September 21.

## MAINE AND PROHIBITION

From The Boston Globe.

The information that a large number of European scientists have signed a petition for the retention of the prohibitory law in Maine is neither appropriate nor impressive. It is not appropriate, because the people of Maine are fully capable of deciding this important question, and showed at the last election that a majority of the voters of the state wish the law changed. At least, that is a fair inference to be drawn from the result. It is not impressive, because the people of Europe know little about conditions in Maine.

Maine is the last of the New England states to cling to prohibition. One by one the states have weighed prohibition in the balance and found it wanting. The Pine Tree state alone has allowed the antiquated law to remain on the books. It took the antiquated law to remain on the books. It took the antiquated law to remain on the books. It took the antiquated law to remain on the books.

Now for a change in the law and a fair trial of local option.

## CANADA AND RECIPROCITY

From the Atlanta Georgian and News.

It is not up to the Canadian parliament to make the reciprocity agreement. We had trouble enough getting it passed and this trouble we now cordially reciprocate with Canada.

From the Toledo Blade.

Canada will now talk reciprocity into a corner and make it cry for help.

From the Syracuse Herald.

The fence between this country and Canada is so loaded with American rooters for Mr. Laurier at present that it may need a few extra braces to keep it from falling down flat.

From the Memphis News-Scimitar.  
 Premier Laurier is not afraid to go before the people of Canada with the reciprocity treaty, though his political future is staked on the hazard.

## PARKS AS A PAYING INVESTMENT

From The Survey.

The annual report for 1911 of the Madison Park and Pleasure Drive association is the usual attractively published, well illustrated and exceptionally interesting discussion of the practical park achievements and aspirations of a small city. An interesting feature this year is a carefully made calculation that, owing to the increase in assessed values, which may be attributed directly to the influence of the parks, the city is receiving at the present rate of taxation twice the amount which it is giving to the parks, after making deductions for interest paid on city bonds and on all other moneys expended by the city for park purposes. That is to say, the report calculates that the city, as a result of its park investments, is now receiving, clear, twice as much as it is paying for them.

## A POSSIBLE SOLUTION OF THE STORAGE EGG PROBLEM

From the Journal of the American Medical Association.

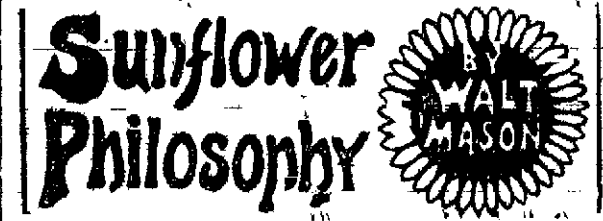

In German China, according to the report of Consul J. C. McNally at Tientsin, the desiccation of eggs is successfully carried on, and the product is shipped in large quantities to Germany. One shipment has also been made to the United States with the expectation that the eggs will comply with the food and drug act and that a thriving trade may be built up with this country. It is said that this product can be kept indefinitely if stored in a dry, cool place. It requires about 70 volts to make one pound of the dried product and the whites of about 200 eggs to make a pound of the dried albumen. The price of the whole dried egg is 31 cents a pound of the albumen 44, and of the yolk 24 cents a pound. This industry in German China is said to be growing rapidly. If that is claimed for it is true, growing rapidly.

this certainly should be a more satisfactory method of preserving eggs than that of cold storage. Under the food and drug act some of the cold storage people have been much exercised by the regulation requiring that eggs shall not be stored longer than three months before using. They assert not only that it is impossible to keep all of their stock over that length of time, but that it is not necessary, as the eggs do not deteriorate sufficiently in that time to make them dangerous or undesirable as a food.

## THE RECALL

From the Springfield Republican.

In some of the Pacific coast cities the recall has undoubtedly been made a nuisance by mischievous persons who either are malcontents and cranks or are hopeful of casting discredit upon the recall idea by working it to death. In Pasadena, Cal., a newspaper hostile to "the people's rule," starts a recall campaign every little while, apparently for the mere fun of the thing. The Seattle Post has just signed an emphatic protest against another recall election for mayor this year. The experimental period for this innovation in popular government may prove to be somewhat checkered.

"Reggie, you're a fine young fellow, but you're bound to have your way, and you'll marry Arabella, spite of all that I can say. Though advice from me is futile, since you're firm as any rock, though the things I say seem brutal, yet I've

## THE RASH LOVER

simply got to talk Arabella is a daisy, smoothest girl I ever saw; but the neighbors say she's lazy, and she will not help her ma. She is stylish, she is classy, and her eyes are simply a riot, but the people say she's lazy to her mother, and I have lived and loved and suffered, and I've found it is the law that no sane, well-balanced duffer would wed a girl who'll sass her ma. She may have a thousand graces to adorn her fair young life. You had better hunt some other daisy in this country wide, for a girl who'll sass her mother will gold brick you as a bride.

Copyright, 1911, by George Nathan Adams. Drawn by Walt Mason.

"Yes, we are going to get out somewhere at least twice a week. Sometimes we'll go calling, and sometimes we'll go to church or to a concert or lecture or to the theater. But wherever we go, we're surely going somewhere together at least twice a week, and maybe more. We made that our wedding anniversary resolution. You know we had been married seven years last Wednesday."

The lady who announced that determination, is one of the brightest little women in our neighborhood. She has two children to whom she is devoted. One is a girl, and the other a boy.

"You see, she went on in explanation, 'Harry and I got to talking things over the other night, and we just decided that we had slipped into a rut. When the children were little babies, of course we couldn't go out very much. But now that they are older and we have a very trustworthy maid, there really isn't any reason on earth why we shouldn't go out more and yet we are so in the habit of staying in that I don't believe we go out anywhere together, once in two weeks. Harry plays with the children until they go to bed, and then reads the newspapers, and the magazines, and I read or sew, and half the time we go to bed at or half past

"On our anniversary some friends of ours whom we visited on our honeymoon, invited us to go to dinner and the theater with them and we did enjoy it so much that when we got home we sat down and talked it all over and we made up our minds that we had gotten into a rut, and we ought to get out of it."

"We think we owe it both to ourselves and the children to keep alive and young and in touch with things, and we can't do that if we sit down and stare at a book or each other every night."

"Harry works hard, but not so hard that he needs to drop into a chair and doze or read all the evening, and he says he felt better and more alive the day after our little spree" than he had for weeks.

"So we're just going to drive ourselves out. We're going to look up some of the friends we lost sight of when we were so tied down by the babies, and we're going to take in a good play or concert or lecture occasionally, and we're going to take some part in our church life, and we're just going to get out of this married folks rut."

"I know it may come a little hard at first—we've vegetated so long, but I'm sure we'll enjoy ourselves and everything else better, once we get thoroughly waked up, and I think, too, that when our children get old enough to want to be friends with us, we'll be better able to be friends with them than if they kept on vegetating the way we are."

Does the lady's resolution appeal to you? I must say that it does to me, and that I know more than one married couple who would benefit both themselves and future generations, by making—and keeping—a similar one.

By Ruth Cameron

## Lysander John Joins the Old Man's Club

By FRANCES L. GARSIDE.

Spring, that season of budding hopes and renewed aspirations, found Lysander John Appleton so exhausted from a winter's soliloquy with his pillow cushion ladies and games of solitaire that he felt the need of renewed interests and a wider horizon of thought and joined the last stronghold before the final entrance into Lonesome Land: An Old Man's Club.

Here was a place where he would complete certain reminiscences of his boyhood which he had been trying to tell his family for 10 years.

At the first—ah, alas, only meeting Lysander John attended, a white-haired man was on the program for "My Greatest Sorrow."

"I am a bachelor," began the speaker.

"Now what does he know about sorrow?" thought Lysander John.

"I am a bachelor," repeated the speaker, "and my greatest sorrow is that, now, in my old age, I am all alone. Had I married when young, as doubtless every one of you did, I might have the loving companionship of a sympathetic wife in my declining days. I might have a daughter to comfort and love me, a son upon whom I could lean."

"You came here from homes where you are never lonesome; you do not know the dreariness of life without the inspiration of wife and child; you come here from homes of happiness and when you left the family followed you to the door and begged you not to stay so long."

"I came here from a room in a hotel, and no one but the elevator boy saw me off."

The tears began to roll down Lysander John's cheeks, and wiping them off on the back of his hand his wife having neglected to lay out a handkerchief that morning he stumbled out of the hall, and made his way home.

## What the Press Agents Say

### JOSIE O'MEERS QUITE THE RAGE IN PARIS

Over in Paris, where they are given to ornate adjectives and language otherwise extraneous to the subject, Josie O'Meers is the "Queen of the Silver Thread." It seems that Josie booked in at the Folies Bergere and showed the Boulevardiers and the rest of them something new and distinctly classy in the way of wire walking. Miss O'Meers has brought back to America with her not only the nicknames but also her wire act, very highly polished and she is proving a good bit the same sensation this side the water she did the other. Of course, that Parisian extravagance may have been in some measure due to the fact that Miss O'Meers is an exceptionally beautiful woman whose natural lines have been much enhanced by her constant athletic training. At any rate, whatever it was, Paris going, she has it with her now and in her appearance at the Majestic this week, as well as in previous weeks all over the S. & C. circuit, Josie has been pleasing her audiences. Her dancing on the tight wire is out of the ordinary and in such little stunts (try it) as jumping over a chair held above the wire she shows remarkable skill.

The big headline act this week is "Hogan in Society," and with George Rolland as Hogan it can be put down as one of the best comedy sketches that ever came down the pike. San-bing and Lee have an amusing hodgepodge of talk and song, the premier prize presents a delightful musical act, the Majestic has two comedies, one a new Rex film which is extremely funny, and the concert orchestra program maintains its uniformly high standard. Altogether the bill at the low Majestic prices—10, 20 and 30 cents—is an entertainment bargain of the kind. Performances at 2.30, 7.30 and 9.10.

### "THE RED CIRCLE"

The last performance of "The Red Circle," which has proven to be one of the strongest productions the Lorch company has presented in this city, will be given at the Opera house tonight. Tomorrow and Saturday nights "A Romance of the South" will be offered. There will be a matinee of this play Saturday afternoon.

As only two weeks remain after the current week of the Lorch company's engagement in this city, Mr. Lorch is having a difficult time in deciding just what plays to produce. As there have been many requests for various plays and he himself has planned on certain offerings he cannot determine upon what will please his patrons best. While the revivals of some plays would undoubtedly meet with the approval of many playgoers, there are others who would prefer to see new dramas and comedies, never before presented in this city.

If his present ideas are carried through, Mr. Lorch will try to give a cycle of plays which will give himself opportunities to appear in the line of parts in which he is liked best by local playgoers. For instance, he is extremely popular in cowboy roles, so it is entirely possible that one of next week's plays will be a western drama. He also wants to produce a comedy, somewhat on the lines of "The Blue Mouse" which proved so successful early in the season. However, what he had been in on the previous day. The houses generally extend in broken lines, and even the dilapidation is, in some measure, concealed by the small, modern roofs placed over the walls to protect them from further waste by the weather. The doors and windows indeed are all open, but so they generally are in the modern houses of Italy, and the somber brown tints of the walls are not very different from what is seen in the decayed towns of the same country at the present day.

You turn to the right and left and wander from street to street, and still you have a perfect image of a town before you, except that no inhabitants appear, and these you suppose have left a few days before. The Roman forum is still to be seen, with all its accompaniments of temples, porticos, curiae, etc., not indeed perfect, but only so injured that what is missing can be replaced and what is mutilated restored.

There are still shops to be seen with their utensils of trade within them, and about a hundred private houses of all descriptions from the poor cottages to the patrician mansion giving, as it were, a glimpse of the domestic life and manners of the people. Lastly, the tout ensemble of the walls, gates, streets, forum, houses, temples, fountains, theaters, associated as they are with such other, give the visitor a conception of a Roman town incomparably more clear and satisfactory than any number of such objects scattered over distant localities could have furnished.

The walls of the city are nearly 20 feet thick and about as high, faced with blocks of lava inside and out. There are six gates and many towers rising above the ramparts, and pierced with arches. The best means of approach to Pompeii ruins is afforded by the Appian Way to the "Gate of Hercules."

An excellent idea of the impression gained on a visit to Pompeii is contained in the three lines by the poet Shelley:

"I stood within the city distended, And heard the Autumnal leaves like light footfalls Of spirits passing through the streets."

The beautiful town of Pompeii was in its full glory at the commencement of the Christian era, and was a city of wealth and refinement, having 35,000 inhabitants and beautifully located at the foot of Mount Vesuvius on the bay of Naples. The whole district is volcanic and a few years before

the eruption of 1794 it was a city of 12,000 inhabitants.

It was the last of the Roman cities to be destroyed, and its ruins are the most complete and well preserved of any of the ancient cities of the world.

## Hardy's

16 NORTH TEJON STREET

### THIRTY YEARS AGO TODAY

September 7, 1881.

Colorado college opened for the season with 23 students in attendance. President Tenney stated that this was only one-third the number that he expected to have a little later, many not having reached town. The faculty of the college at that time consisted of seven members besides President Tenney. Of these seven, Professor Strieby is the only one still actively engaged in teaching.

It was reported that the public schools of the city were attended by over 500 pupils.

Colorado was said to have 24 dividend paying mines, of which 17 were in Leadville.

The W. C. T. U. met in the parlors of the Congregational church to consider the coming meeting of the State Temperance union, soon to be held in this city. Mrs. Newton, the president, presided.

### TWENTY YEARS AGO TODAY

September 7, 1891.

The D. & R. G. was advertising an excursion to a grand potato bake at Monument on the 22nd.

The contract for building the parsonage of the United Presbyterian church on the corner of Weber and Cucharas streets was left to M. M. Ristler for \$2,200.

Miss Scarborough announced that her school would open for its fifth year on the 17th.

A female aeronaut, called Lady Gray, made a balloon ascension and parachute drop at the Casino in Broadmoor. She landed in the lake but was rescued without trouble.

### NO. 1 POMPEII

Pompeii has the reputation of being "the most wonderful of the antiquities of Italy," and one which it is said never disappoints the traveler who is at all acquainted with the history of ancient Rome. The impression which it gives of the actual presence of a Roman town in all the circumstantial reality of its existence 2000 years ago is so vivid and intense that it requires but a small effort of the imagination to place yourself among the multitudes which once thronged its streets and theaters, and occupied its now voiceless chambers.

The expression so often used that an exploring the ruins of Pompeii you expect to see the inhabitants walk out of their houses to salute you is scarcely a figure of speech. You see a street before you carefully paved and well worn and in such condition as if it had been in use on the previous day. The houses generally extend in broken lines, and even the dilapidation is, in some measure, concealed by the small, modern roofs placed over the walls to protect them from further waste by the weather. The doors and windows indeed are all open, but so they generally are in the modern houses of Italy, and the somber brown tints of the walls are not very different from what is seen in the decayed towns of the same country at the present day.

You turn to the right and left and wander from street to street, and still you have a perfect image of a town before you, except that no inhabitants appear, and these you suppose have left a few days before. The Roman forum is still to be seen, with all its accompaniments of temples, porticos, curiae, etc., not indeed perfect, but only so injured that what is missing can be replaced and what is mutilated restored.

There are still shops to be seen with their utensils of trade within them, and about a hundred private houses of all descriptions from the poor cottages to the patrician mansion giving, as it were, a glimpse of the domestic life and manners of the people. Lastly, the tout ensemble of the walls, gates, streets, forum, houses, temples, fountains, theaters, associated as they are with such other, give the visitor a conception of a Roman town incomparably more clear and satisfactory than any number of such objects scattered over distant localities could have furnished.

The walls of the city are nearly 20 feet thick and about as high, faced with blocks of lava inside and out. There are six gates and many towers rising above the ramparts, and pierced with arches. The best means of approach to Pompeii ruins is afforded by the Appian Way to the "Gate of Hercules."

## SCHOOL ENROLLMENT HERE TOTALS 4,622

Detail enrollment reports from all the Colorado Springs schools were filed with Supt. Cole yesterday afternoon, and according to him a most satisfactory showing was made. The total number of pupils enrolled is slightly less than last year's total, but it is the belief of Supt. Cole that by the end of September, when the next report is made, a greater number of students will be registered than ever before. So far as can be learned now, few, if any, temporary students are among those who entered school work in Colorado Springs yesterday. Classes in all schools opened according to schedule yesterday morning, and the work is well under way.

The list of schools with official enrollment follows, showing the Buena Vista to be the only one with a marked increase over last year: Bristol, 336; Buena Vista, 198; Columbia, 458; Curtis, 52; Garfield, 538; Helen Hunt, 218; High school, 658; High school annex, 147; Ivywild, 111; Liller, 348; Lincoln, 14; Lowell, 755; Pike View, 24; Rock Island, 29; Roswell, 87; Steele, 446; Washington, 316. Total enrollment, 4,622.

The implicit confidence, that many people have in Chamberlain's Colic, Cholera and Diarrhoea Remedy is founded on their experience in the use of that remedy and their knowledge of the many remarkable cures of colic, diarrhoea and dysentery that it has effected. For sale by all dealers.

## TEMPLE THEATER FOR DRY FARM CONGRESS

John Lemox, secretary of the board of control of the International Dry Farming congress, and Secretary Burns made an examination of the new Burns theater yesterday to see if it will be possible to use the theater for the congress, October 16. It was decided that this cannot be done, and the sessions will be held at Temple theater, which seats about 2,000 people. The Burns theater is progressing slowly because of the elaborate interior decorations.

The upper part of the theater will be completed at the time of the congress, and the Chamber of Commerce is to be located in its handsome new quarters, where it will be able to welcome strangers properly.

## Brooks Asks Wilson to Attend Congress

Former Congressman and Mrs. F. E. Brooks went to Denver yesterday afternoon to attend the banquet to James Wilson, secretary of agriculture. They are close friends of the secretary, and their particular object was to invite him to be their guest here October 16, at the time of the International Dry Farming congress. He has given a provisional acceptance of an invitation to be present. President Taft will not attend the congress, a telegram received from Congressman Mondell of Wyoming, who was trying to secure the presence of Mr. Taft, stating that the president's route cannot be changed. It said that the president is in full sympathy with the object of the congress, better farming.

## GETS OUT ART CALENDAR

An art calendar featuring a wash drawing of the first eating house on the Rio Grande railroad in Colorado Springs has just been gotten out by A. J. Lawton for his insurance business. The illustration shows the cabin as it appeared in 1874, with Major McDowell and "his dog Ring" sitting in front. The calendar starts with this month and runs through 1912.

## OUTLOOK AT COLORADO COLLEGE ENCOURAGING

Registration of students at Colorado college has already begun, and, according to those in charge of the work, the prospect is exceedingly bright for the ensuing term. It is said that more freshmen will be enrolled this year than ever before, and that most of the students who attended last year will return. All the instructors in each department will be ready for work when the college opens September 13.

Colorado Springs students are expected to register this week. The rolls will be opened from 9 to 11:30 every morning and from 2 to 4 o'clock in the afternoon. Professor Motten, who has been in charge of the summer's work in securing new students, has made a very favorable report concerning the number of prospective and actual students which he has enlisted throughout Colorado.

## SAYS CARTOON WAS PAT

Writing to J. A. Himebaugh, commissioner of public safety, L. C. Dana, formerly of Colorado Springs, but now of San Diego, Cal., says that the cartoon, "By Heck," published in a recent issue of the Gazette, was most appropriate. The cartoon depicted Himebaugh wearing a big badge inscribed "Chief."

"Some of my friends back there have been urging me to return and make application for chief of police," Mr. Dana writes, "but I have had enough of politics. The only suggestion that I could make for a chief would be to select a good man who understands the business and give him full sway under your direction. Nothing will disorganize a police force so bad as to have three or four heads to that department."

Dana served as marshal, as the chief of police was called in the early days, and later as postmaster of Colorado Springs.

## EVERY DAY

Two trains for the wonderful Cripple Creek trip leave Santa Fe Co. S. station 8:00 a. m. and 10:40 a. m. \$2.50 going and returning Short Line, or \$3.00 going Short Line and return Midland Route.

## Closes After Most Successful Season

If you know of the real value of Chamberlain's Liniment for lame back, soreness of the muscles, sprains and rheumatic pains, you would never wish to be without it. For sale by all dealers.

## TAKING PHOTOS OF SPRINGS RESIDENTS

C. F. Grassie, head of the well-known Chicago photographic house, which bears his name, is in Colorado Springs securing sittings from several of this city's prominent people. Mr. Grassie has not divulged the purpose for which the photographs will be used when finished, but says that it will be made public within a short time. Many of the leading illustrated magazines obtain photographs from the Chicago firm of people in the public eye. Mr. Grassie is a guest of the Antlers hotel.

## TEMPLE QUARTET ALSO AT THE ELKS MUSICAL SOCIAL

The Temple quartet, in addition to the Midland band will give several numbers at the musical social to be given by the Elks at the Home tomorrow evening. The full program will be announced Friday.

## CITY BONDS DELIVERED

The city water and sewer bonds have been properly delivered according to information received yesterday afternoon by Mayor Avery, in a telegram from Charles Chapman, city clerk.

Mr. Chapman reached Boston yesterday morning, according to the telegram. And the bonds were delivered to E. H. Rollins & Sons. The issue amounts to \$175,000 for water improvements and \$22,000 for sewer improvements.

## Tale of Two Pretty Girls, a Missing Ring, and a Watchful Jeweler

It was an old, old game that two strange girls tried to pass on William Pfeiffer, one of the proprietors of the Colorado Springs Jewelry company store, 106 East Pike's Peak avenue, yesterday morning, and but for the quick eye of Mr. Pfeiffer, the attempt would have been successful.

It was about 11 o'clock when the two girls entered, and Mr. Pfeiffer, who was alone, tells the story:

"I've been wanting to buy a ring," one of the girls, a tall, handsome blonde, said, "but I can't make up my mind what kind I want."

Pfeiffer stepped to the front counter and pulled out a tray of rings with turquoise and opal settings.

"Oh, aren't they dear!" the smaller, one, a pretty brunette, exclaimed enthusiastically. Then they began a senseless chatter. They were undecided as to the kind of a ring they wanted. The blonde favored the turquoise. The brunette thought the opal would be the most becoming to the tall girl's peculiar style of beauty. They could reach no decision, and informed Mr. Pfeiffer that they would go home to talk it over and would return later.

Ring is Missing.

Pfeiffer was about to place the tray back in the case, when he noticed that a small opal ring, worth about \$15, was missing from its accustomed place in the corner of the tray. He was "hep" in an instant.

Walking around the counter, he asked the girls what had become of the ring. At first they were indignant. Then they started to bluff. But Mr. Pfeiffer was unmoved. He intimated that there might be a policeman around the corner. Then it was that the younger girl began feeling about her waist. An instant later she exclaimed:

"Why, here it is!" I must have dropped it, unknowingly, while I was looking at the rings, and it fell in my waist.

The jeweler permitted the girls to go. He is anxious that the other jewelers of the city hear the tale, so as to prevent a repetition of the trick.

## EL PASO COUNTY IS TO HAVE SEPARATE DISPLAY AT DRY FARM CONGRESS

El Paso county is to have a separate display at the International Dry Farming congress that will equal anything brought here from Canada, or the northwest. This was decided at a meeting of the board of control Tuesday evening. It is probable that County Commissioner Banta will take charge of the matter, as he is a member of the board. If he does he will call into service such men as Frank Cotton, F. F. Horn, G. H. Rector, J. A. Himebaugh and others who know the farmers to aid him.

At Fountain a committee is already at work gathering material for a display. All the handsome stuff shown at the Cripple Creek fair will be brought here. It is probable that an organized movement will be made to take out a large crowd of people from Colorado Springs to the fair.

Any amount of good stuff can be collected by Mr. Banta and associates for the congress exhibit. Already it is floating in to headquarters, not for contest, but to merely show what can be done. The people around Peyton have been particularly active in sending in their displays. Yesterday they arrived two sheaves of oats, sent to A. R. Braisted by George E. Watts of Peyton.

## What Watts Did

They are the White Australian, a short, thick-set growing variety, and the sheaves are a fair example of an 18-acre field that was grown. The stalks stand in the field on an average of one and two stalks every 12 inches. The rows are three feet, eight inches apart. They were planted on land that had grown its second crop of wheat, turned under last fall to a depth of 10 inches. All thin places were given a top dressing of manure during the winter, and the land ripened eight inches deep in April. It was well harvested in early May and planted May 12, with a cornplanter set to drop two grains every 12 inches. This was harvested once each year, and when about six inches high, was cultivated with an eight-shovel riding cultivator three times. Cutting was started August 27.

S. W. Potts, near Peyton, writes Braisted that he is going to send to the congress specimens of oats that have averaged \$180 to the acre.

From the Watts place also have come some six-foot stalks of corn that grew from a single grain. Some of them have three big, well-matured ears that are past any chance of injury by frost.

The western part of the county is not going to be behind. There were brought into headquarters yesterday, green oats raised near Green Mountain Falls that stand five feet high. They were raised on the J. W. Phillips place, formerly the Childs ranch. There is not a thresher in that part of the county, so all the stuff raised is cut and fed as hay.

## Simple Home Remedy For Wrinkled Faces

(From Popular Monthly.)

Thousands of women are spending fortunes in their frantic efforts to remove the signs of premature age from their faces. When in this state of mind a woman will spend almost any amount of money on worthless wrinkle removers, of which there are many.

If these women only knew it, the most effective remedy imaginable is a simple, harmless face wash which can be made up at home in less than a minute. They have only to get an ounce of powdered saxolite and half a pint of witch hazel at the drug store and mix the two. Apply this daily as a refreshing lotion. The effect is almost magical. Even after the first treatment a marked improvement is noticed and the face has a sunny, firm feeling that is most pleasing.

## NOTHING DOING YET ON APPROPRIATIONS

An effort made by County Commissioners Madden and Hutchinson yesterday to get action on a fourth-class state appropriation of \$10,000 for the International Dry Farming congress, was of no avail.

They were in Denver on official business, and while there conferred with State Auditor Leddy. "Things look mighty dim," was the comment of Mr. Hutchinson last night. "I was informed by Mr. Leddy that the appropriation money is running very low, and it is doubtful if it lasts before the state pays out money on third-class appropriations."

The state is not in a position to pay an \$8,000 appropriation, granted El Paso county, for improvements on the Colorado Springs-Denver road. Madden and Hutchinson conferred with the state highway commission in this respect.

"We were told that the money is not ready," Mr. Hutchinson concluded. "The state has not only promised us \$8,000, but we asked for \$2,000 additional. Maybe it will be paid later."

## CITY TO EMBRACE THE PROSPECT LAKE REGION

So that the police may have authority to arrest duck and rabbit hunters, who have been getting too numerous in that section, the Prospect lake region probably will be made a portion of Colorado Springs. Talk of extending the boundary line was introduced at yesterday's meeting of the city council. Water Superintendent McReynolds and Commissioner Frost advised the step.

If the Colorado Springs Land company brings its tract of land near Prospect lake into the city, which it proposes to do, the city will sell water for the use of the residents, at meter rates, providing that no water is used for sprinkling. By its action, the commissioners took a stand against the sale of water to persons outside the city limits.

Commissioner Lawton was authorized to spend \$113.31, as the city's share of the cost of the new permanent decorative lighting system.

Andy Adams and William J. Lightner were appointed permanent caretakers of the mountain watershed.

**THE CRIPPLE CREEK TRIP**  
Only \$2.50 going and returning "Short Line" or \$3.00 going "Short Line" and returning "Midland Route."

## GET FIGURES SOON ON COST LIGHTING SYSTEM

Figures on the cost of the proposed new lighting system, including poles, are expected by Commissioner Lawton this week from a number of electrical engineers. Within a few days he will be able to submit the general plan of the new decorative system to the city council.

City Electrician Reasner is planning for 14 additional red lights for the police department and an extension of the fire alarm system. The wires will be placed underground and must be installed before the paving is done. The new red light cells will be placed on Nevada and Cascade avenues.

## MISSING GIRL WORKED AT PALMER LAKE HOME

Irma Headlee, the 17-year-old girl who disappeared from her home in Denver May 2, returned to her mother last Tuesday. She said that she had been working for a family at Palmer Lake under an assumed name, and gave as her reason for leaving home her fear of her mother's second marriage, to which she was greatly opposed.

## FIREMEN GET CHECK FROM SELDOMIDGE GRAIN CO.

Twenty-five members of the fire department who fought the fire at the Seldomidge grain company's elevator a few days ago, will get \$2 extra apiece for their work. The company sent a check for \$50 to the fire department yesterday, through Commissioner Himebaugh, and an accompanying letter complimented the firemen on their work.

## JUDGE WALLING IMPROVING

DENVER, Sept. 6.—Judge Walling of the state court of appeals, who was operated upon last night at St. Joseph's hospital for intestinal troubles, was better tonight after having shown symptoms earlier in the day that for a time alarmed his physicians. His condition is not regarded as dangerous.

# Woman's Danger Periods Made Safe

By Lydia F. Pinkham's Vegetable Compound

The Change of Life is the most critical period of a woman's existence, and neglect of health at this time invites disease.

Women everywhere should remember that there is no other remedy known to medicine that will so successfully carry women through this trying period as Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs. Here is proof:

Natick, Mass.—"I cannot express what I went through during the Change of Life before I tried Lydia E. Pinkham's Vegetable Compound. I was in such a nervous condition I could not keep still. My limbs were cold. I had creepy sensations and could not sleep nights. I was finally told by two physicians that I had a tumor. "I read one day of the wonderful cures made by Lydia E. Pinkham's Vegetable Compound and decided to try it, and it has made me a well woman. My neighbors and friends declare it has worked a miracle for me. Lydia E. Pinkham's Vegetable Compound is worth its weight in gold for women during this period of life. If it will help others who may publish this letter."—Mrs. Nathan B. Greston, 51 No. Main St., Natick, Mass.

## ANOTHER SIMILAR CASE.

Cornwallville, N. Y.—"I have been taking Lydia E. Pinkham's Vegetable Compound for some time for Change of Life, nervousness, and a fibroid growth.

"Two doctors advised me to go to the hospital, but one day while I was away visiting I met a woman who told me to take Lydia E. Pinkham's Vegetable Compound. I did so and I know it helped me wonderfully. I am very thankful that I was told to try Lydia E. Pinkham's Vegetable Compound."—Mrs. Wm. Boughton, Cornwallville, N. Y., Greene Co.

The makers of Lydia E. Pinkham's Vegetable Compound have thousands of such letters as those above they tell the truth, else they could not have been obtained for love or money. This medicine is no stranger—it has stood the test for years.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ills. No sick woman does justice to herself who will not try this famous medicine. Made exclusively from roots and herbs, and thousands of cures to its credit.

Mrs. Pinkham invites all sick women to write her for advice. She has guided thousands to health free of charge. Address Mrs. Pinkham, Lynn, Mass.

## A SQUARE DEAL

Be assured you when you buy Dr. Pierce's family medicines—for all the ingredients entering into them are printed on the bottle-wrappers and these are attested under oath as being complete and correct. You know just what you are paying for and that the ingredients are gathered from Nature's laboratory, being selected from the most valuable native medicinal roots found growing in our American forests and while potent to cure are perfectly harmless—even to the most delicate women and children.

Not a drop of alcohol enters into their composition. A much better agent is used both for extracting and preserving the medicinal principles in them, viz.—pure triple-refined glycerine. This agent possesses intrinsic medicinal properties of its own, being a most valuable antiseptic and antiferment, nutritive and soothing demulcent.

Glycerine plays an important part in Dr. Pierce's Golden Medical Discovery in the cure of indigestion, dyspepsia and weak stomach, attended by sour risings, heart-burn, full breath, coated tongue, poor appetite, gnawing feeling in stomach, biliousness and kindred derangements of the stomach, liver and bowels.

Besides curing all the above distressing ailments, the "Golden Medical Discovery" is a specific for all diseases of the mucous membranes, as catarrh, whether of the nasal passages or of the stomach, bowels or other organs. Even in its ulcerative stage it will yield to this sovereign remedy if its use be persevered in. In Chronic Catarrh of the Nasal passages, it is well, while taking the "Golden Medical Discovery" for the necessary constitutional treatment, to cleanse the passages freely two or three times a day with Dr. Sage's Catarrh Remedy. This thorough course of treatment generally cures even the worst cases.

In coughs and hoarseness caused by bronchial, throat and lung affections, except consumption, the "Golden Medical Discovery" is a most efficient remedy, especially in those obstinate, hang-on-coughs caused by irritation and congestion of the bronchial mucous membranes. The "Discovery" is not so good for acute coughs arising from sudden colds, nor must it be expected to cure consumption in its advanced stages. No medicine will do that—but for all the obstinate, chronic coughs, which, if neglected, or badly treated, lead up to consumption, it is the best medicine that can be resorted to.

To find out more about the above mentioned diseases and all about the body in health, get the Comm. Sense Medical Adviser—the People's Schoolmaster in Medicine. It is up-to-date book of 1000 pages—which treats of diseased conditions and the practical, scientific treatment thereof. Cloth-bound sent post-paid on receipt of 31 cents in 1911. Write to Dr. R. V. Pierce, Boston, Mass.

**S. H. S. 1897**—The class of 1897 of the Colorado Springs High school will hold a reunion this evening in North Cheyenne canyon. Members of the class are requested to bring lunch and meet at Stratton park pavilion at 6 p. m.

**FRANKLIN DEMONSTRATION**—It is with great pleasure that I announce to all prospective auto buyers that there will be a 6-motorcycle Franklin at my saleroom today. Call for a demonstration. G. W. Blake, 117 E. Bijou.

**MUCH SMOKE—NO FIRE**—The fire department was called to the home of Howard Morley, 18 East Fontanero street, at 4:40 a. m. yesterday afternoon. They found "lots of smoke but no fire." According to the report made at headquarters, a blaze caused unknown, started in a clothes closet, but was put out with minimal damage.

**BEYLE BROS.** Undertakers and Embalmers, 16 E. Kiowa. Phone 299.

**DREAMS SHE SEES MOTHER**

**KILLED; DIES OF FRIGHT**  
CINCINNATI, Sept. 6.—Fright from a dream that she saw her mother beheaded is believed to have caused the death of Marie Hackett, aged 16, and grief over her demise may have a fatal result for her sweethearts, Harry Hackett, aged 17, who drank wood alcohol after seeing Miss Hackett in her coffin. Homer recently was struck by lightning, and his mind apparently was affected.

**108-YEAR-OLD INDIAN WHO**

**LOST A LEG WILL LIVE**  
TULSA, Okla., Sept. 6.—(U.S. Dep. of Agr.) Walker, a full-blood Shawnee Indian, 108 years old, will live despite the fact that he lost a leg in a railroad accident near here Monday night, his physician said today.  
Walker was once chief of his clan. He has lived near Skiatook, Tulsa county, many years.

## Carnation Butter

is a Colorado product from start to finish. It is made in a brand new plant that is as fully equipped and as sanitary as any plant west of the Mississippi.

## Carnation Butter

is cut in four quarter pounds—lengthwise, just butter-plate size—and each quarter wrapped separately.  
Just unwrap what you want to use at one time.

## Carnation Butter

Try it once and you'll always use it.
